Roommate Choice Affects Academic Achievement

Do college roommates affect each nificantly related to those of their other's academic performance? For certain groups of students, the answer is yes, according to a study on "Roommate Choice and Academic Achievement" recently conducted by Robert A. Pierce, in-structor in psychiatry at the Uni-versity of Rochester School of Medicine and clinical psychologist in the University's Student Health Service

Colleges and universities tend to regard the provision of housing facilities for their students as a service — perhaps more for par-ents than students — rather than as an educational tool, Dr. Pierce says.

However, housing arrangements do appear to have educational im-plications, according to his survey of two groups of students and their roommates. He found that the students in the fall semester of a class in Introductory Psychology tended to achieve at a level similar to that of their roommates, but that there were interesting differences when the group was broken down by sex and by class For the overall group, only

Dr. Lieberman To Be

Dr. Myron Lieberman

Dr. Myron Lieberman, author of "The Future of Public Education" and director of educational research and development at Rhode Island College will be honored at a dinner at the University of Illinois on October 20. The dinner is being held in conjunction with Dr. Lieberman's recent honor of being chosen the "Distinguished Alumnus" for 1967 by the College of Education at the University.

Dr. Lieberman has written seven books and numerous articles on education, and is renowned as one of the foremost educators in the nation.

Dr. Lieberman has been on the RIC faculty since 1963 and is a native of St. Paul, Minn. He redoctor of philosophy degrees from the University of Illinois.

- Rochester, N. Y. - (I.P.) - 'men's achievement levels were sigroommates. Broken down by class however, the survey showed that freshmen. "who are for the most part arbitrarily assigned to each other, tend to accommodate their of achievement to that of their roommates."

> Among upperclassmen, who are free to choose their roommates, it appeared that "men choose roommates who achieve similarly to themselves . . . while women seem to pay no attention to this dimension at all."

> Repeating the study with the spring semester class and their roommates, Dr. Pierce again found that the overall group tended to achieve at a level similar to that of their roommates, as did the freshmen. "But the findings that upperclass men match their levels of achievement even more closely that of their roommates, or to choose roommates of similar achievement levels, was not borne out in the second study," he said.

> On the basis of his findings, Dr. Pierce concluded that "among cergroups of students, school achievement correlates positively between roommates" and that "overachievement" probably ac-counts for a fair portion of this effect. (An overachiever was defined in the study as a student whose class standing at the end of the semester or of the academic year was higher than his ability as measured by College Board scores.)

The latter conclusion was based iors, and last year's graduating on the fact that of the roommate class will receive the yearbook. The latter conclusion was based pairs whose achievements were most similar, nearly half showed copies of the '67 **Janus**. holding up publication until these activities could be covered and inthan mutual underachievement, yearbook was to have been deliv- cluded in the book

Channel 36 Planning Series On Education and Race Relations

grams on Education and Race Re-lations will be telecast over WSBE-TV, Channel 36, beginning Thursday, October 19, at 3 P.M. Designed as an in-service program for teachers, the discussions by prominent educators and psychologists will be of interest to the general public concerned about popular suspicions of racial groups.

In-service programs are de-scribed by Adrienne Dowling, In-structional Television Coordinator for the station, as a block of afternoon shows aimed at broadening teacher training through special telecasts to be viewed by them after regular school hours.

Moderators of the series are William C. Kvaraceus, Professor of Education, and John S. Gibson, Associate Professor of Govern-

Public Affairs.

The series is divided into three grounds, psychological and learning problems, and curricular and instructional implications.

The philosophy of the course is based on the fact that the concept of separate races, people who appear different or act differently from the majority groups, is not considered tenable by most be-havioral or social scientists. Education in race relations is the process of developing new behavior and attitudes in children and adults through planned learning experiences, to overcome prejudice arising from such differences. Physically, all the subgroupings

yearbook and this necessitated

A weekly series of fourteen pro- | ment, at Tufts University. Both | of men have more human traits in men are directors at the Lincoln common than they have racial dif-Filene Center for Citizenship and ferences. Thus, the biological oneness of mankind is of far greater The series is divided into three significance than the relatively sections on sociological back- superficial differences between groups.

> Yet it is these very differences which are the major concern of the Race Relations series. It necessary to know and recognize these differences, not only to overcome conventional prejudice, also to learn the value of those differences. It is the very differences which lend richness and variation to the world.

The discussions will center largely around the problems of the negro-white community, recognizing that other ethnic groups Jew, Puerto Rican, American Indian, American Mexican — often find themselves victimized by prejudice and discrimination.

The topics will range from the history of the Negro race to civil rights and civil liberties.

WSBE-TV is Rhode Island's first and only educational television station, and maintains its stu-dio facilities on the Rhode Island College campus.

RIC Participating In Education Week

Rhode Island College plans a week of special activities in con-nection with Higher Education Week in Rhode Island, October 29 to November 4, 1967.

Highlighting the week's events at RIC will be a Higher Education Week convocation on Thursday, November 2, at 2 p.m., in Roberts Auditorium. The Keynote speaker will be Dr. Thomas F. Pettigrew, Associate Professor of Social Psychology at Harvard University. Dr. Pettigrew is an expert on race relations. He has written a definitive study on Negro-White intel-ligence, and recently was Consultant on the Civil Rights Commission. The topic of his address is "Race and Education."

Other events planned for RIC during Higher Education Week include an Open House at the college on Sunday, October 29. A number of departments are pre-paring special exhibits or demonstration classes.

At 1 p.m. on Tuesday, October 31, Jason Blank, Director of In-stitutional Research, will speak at a Faculty Colloquium on the subject, "Decision Making in Higher Education: the Role of the Computer."

These and other plans for the week are under the direction of bers are Dr. Myron Lieberman, Dr. Eleanor McMahon, Dr. Carol Ravenal, and Dr. Nancy Sullivan,

Peace Corps/College Degree Program To Be Extended and Expanded

The Peace Corps and the State | and integrated academic courses | uate credit. pand the unique Peace Corps/College Degree training project launched in the summer of 1967. The highly favorable reaction to this summer's pioneer venture sparked the decision to enlarge the program for 1968. It is the first program to make Peacs Corps training and service an integral part of curricula leading to Bachelor's and Master's degrees.

Candidates will be selected from who are completing their sopho-more or junior year by June 1968. Those selected will be able to earn native of St. Paul, Minn. He re-ceived both his master of arts and gible for a Peace Corps assignment in one academic year flanked

University College at Brockport, N. Y. have announced completion of arrangements to extend and ex-mathematics or the sciences; those who have completed their junior year prior to entrance into the program will have the opportunity for a double-major.

At the end of the second summer armed with the degree, a teaching license, in-depth cross cultural preparation and fluency in cultural preparation and fluency in Spanish, the graduates as Peace Corps volunteers will be off on their Latin American assignment. As members of the staffs of teachthe rank of students in good er training institutions and/or standing at an accredited college consultants to secondary teachers of mathematics or science, they will be important participants in the educational development ef-meaningful and the personal prod-mittee on Higher Education. The Rising Cost of Hospital Care

Recently, numerous hospitals in Rhode Island followed each other's lead and raised their room rates once again.

A Rhode Island state representative has vowed to introduce legislation in the General Assembly this year which will seek to set up controls under a state agency charged with investigating these hikes, preventing them if they seem unwarranted.

It is this same legislator's contention

Ara Dostourian:

Cleanliness Next To Godliness A Lot of Unadulterated 'Baloney'

ization.

by Bernie Dulude

The cliche, "Cleanliness is next to Godliness," is, in the opinion of adulterated "baloney." He expressed this belief in a lecture entitled "Christ and the Hippies," "Be of this world, not in it," which which he gave last Thursday in is what the early Christians did in Mann Auditorium. It was the their catacomb meetings, is the

Program Series, and termed a "Christian outlook" on the subject. Dostourian's remarks served Mr. to dispel some of the mythology surrounding the hippie movement, and showed that it is not as dissimilar from Christianity as one might think.

One of the strongest criticisms leveled at the Hippies which Mr. Dostourian attempted to refute is their insistance on "dropping out" of society in rebellion and doing nothing to better it. Mr. Dostourian said that the reason why hippies have dropped out is to gain strength in communal and fraternal gatherings, in order to prepare effect their message on society Mr. Ara E. Dostourian, a lot of un-adulterated "baloney." He ex-pressed this boli of insearching He ex-both empty and irrelevant. He pointed out the words of Christ, Hippies," "Be of this world, not in it," which

third event in the RIC Chaplaincy |'historical reason for religious services today. The hippies, in their own way, are trying to do this. The problem is that many people see this action as a cowering re-treat rather than a strategy meeting, and hence they label the hippies as being hypocrites.

Mr. Dostourian was quick to point out that in any kind of group whatsoever, there is bound to be a certain percentage of hypo-critical people. He said that the marginal Christian, who sub-scribes to the name Christian for only an hour on Sundays is most certainly not living his religion as he should and is, in fact, a hypocrite. Mr. Dostourian stated further that most hippies take their "Hippieness" quite seriously and hope to become the "leaven" of society through their message of "Flower power."

This term has come to be the catch phrase by which the hippie movement is recognized. One reads where a hippie, when he is being arrested by a police officer, pins a flower on his lapel as he is being taken away. Mr. Dostourian said that many people find this ludicrous, but when you get down to basics, "flower power" is the message which Christ preached to the world. Christ made this point when asked how can you tell if people are Christian or not, and He replied, "You shall know them by the way they love one another.' On another occasion, when asked 'What is the greatest commandment of the law," He answered by formulating the entire core of His teachings, the Two Great Com-mandments, "Thou shall love the Lord, thy God, with thy whole heart, thy whole mind, and thy whole the the start of the st whole strength," and "Thou shall love thy neighbor as thyself." The message of Christ was love, not altogether distant from the hippie message, dressed-up in modern day jargon, and called "flower power.

The problem with the hippie movement, as Mr. Dostourian s it, is that their belief is a beautiful humanistic ethic, such as Marxism or socialism, but that alone, it is not enough, that it lacks the power of fulfillment strictly of itself. He said that the hippies felt this power was in LSD and other drugs, but that many of them were forced to revamp their thinking when the hallocinogens failed to give them what they sought. Mr. Dostourian feels that the power they are looking for is the grace of God, or "Zap" as he prefers to call it.

Letters to the Editor **Faculty Member Borst Criticizes** Students

Dear Sir:

for it cannot understand what causes the older generation to be rebellious.

Two instances on this campus serve to illustrate my accusation that too many younger people have much to learn in the area of manners and personal relation-ships and that these same juveniles foster the collegiate rebellion that I so much abhor.

Case in point: I attended the Avant Garde Films presentation on the evening of Wednesday, Sep-tember 27, and was soon overcome a cloud of poisonous fumes by from several dozen cigarettes. Al-though the student body is clearly aware of the fire regulations im-posed upon public buildings and, in spite of my request to obey such regulations, several students continued to smoke.

In another incident, a student parked his car in the faculty lot, alighted, and walked off to take care of some serious matter in the Student Center. Assuming that the student was a freshman, he has had ample time to study the parking regulations. If a longer period is needed for comprehension to dawn, I suggest we see that he doesn't have to accept the burden of becoming a sophomore.

The younger generation should learn that privileges are earned, not assumed, and that even the most patient members of the older generation reach a point where strong statements replace politeness

of this college, obsessed with their own importance, learn the ways of terest and participation in the afgood mannered people, and prac- fairs of the community. tice them.

If regulations are blatantly violated it is not surprising; the rude-

Freedom School

Forum Ill-Attended Dear Editor: Recently, I attended the well publicized forum on the Freedom School established in Providence as a protest by the South Providence community against the School Committee's action of

closing the Flynn Elementary School. I was surprised to see only about fifty students and faculty present. I was under the impres sion that most Rhode Island College students were teacher-education oriented and residents of Providence and its surburban areas. As future teachers you could have shown an interest in your profession by attending this forum. Your education toward being a teacher should involve not only taking courses here on campus but also becoming aware of the social, political and cultural climate of the community in which

you live. Soon you will be a teacher. And you will demand fringe benefits, higher salaries, smaller classes, etc. You will claim that what you demand is fair and just if teaching is to be considered a "profession." What you will fail to consider is I suggest strongly that students that being a member of a profession involves a constant, active in-

John Cicero

Regular meetings of the Rhode Island College Debate Club are held Thursdays at 1:00 p.m. in Craig Lee 227. Demonstration debates are presented at the meetings in order to acquaint those interested in joining the team in mastering the techniques of winning an argument. The topic of all ten debates this year will be: "Resolved, that the Federal Government should guarantee a minimum annual cash income to all citi zens?" This is the topic that will be contested by every college and university debating team in the country during the coming year.

Club President John Cicero and Advisor Philip Joyce have ar-ranged an attractive schedule for the team this year. Trips will be to Colby College in Maine, to La-Salle College in Philadelphia in October, University of Vermont in November, New York City in De cember and New Orleans Mardi Gras Tournament in February.

Booters Down Gorham 2-1 In Thrilling Overtime

Freshman Lionel Jean's goal with a minute and ten seconds left in the second five minute overtime period of a tight game with Gorham State College gave the RIC soccer team a 2-1 vic-tory last Saturday in a game play-ed at home. The win gives the ed at home. The win gives the Anchormen a 3 and 1 record in league competition and a 4-3 overall record on the season. In-terestingly enough Gorham was the only team last years booters beat outside of a win over the Alumni.

BARNEY SCORES

Bill Barney scored for the An-chormen in the first period on an assist by Jim Wade while RIC defenses held the Gorham Huskies scoreless.

In the second period, Anchorman goalie, Dave Marzelli, made a nice stop of Bob Luce's attempt on goal to keep the Huskies score-less in the first two periods. Thus the half-time score was 1-0 in

The han-time score was 1-0 in favor of the Anchormen. The Huskies finally scored with about five 2028 of the third period gone when goalie Marzelli came out to stop an attempt on goal. Marzelli had the ball but let it slip through bit has been to the it slip through his hands. Huskie It sip through his hands. Huskle Co-Captain, Pete Chandler, seized the opportunity and quickly put one into the unprotected cage. Through the remainder of the third period Gorham dominated control of the ball but further attempts to score failed.

FINE KICKING

In the fourth period the Anchor-men Booters had their turn at controlling the ball. The team passed well and played hard as they pressed the Gorham defenses. Mario Amiel had a direct kick on goal early in the period that barely missed the cage. Later in the period Amiel had three consecu-tive kicks in a fine display of good kicking, each of them missing the cage by inches. Thus, inspite of the tough offensive display put on by the Anchormen, Gorham held them scoreless during the fourth period, and the game was tied 1-1 at the end of regulation play.

TWO OVERTIMES

The first five minute overtime was hard fought by both teams and neither team was able to penetrate the other's defense. The econd overtime period was going about the same way and it looked like the game would end in a tie. With about two minutes remaining Gorham pressed strongly and with 1:25 left Dave Marzelli made a dramatic stop of an attempt on by the Huskies Dick Belanggoal er. Marzelli snatched the ball and

The winning goal scored by L. Jean who is hidden by the referee

heaved it down field and just 15 seconds later Freshman, Lionel Jean and Brian Samson combined as Jean scored the big one for the home forces

Harriers Win At Home For Third Straight

Cross Country team to its third victory of the season in a triangular meet held at home last Saturday with Southern Massach-usetts Tectnological Institute and Gorham State College of Maine. First Home Meet

The home meet, the first ever in Cross Country history at Rhode Island College gave the Anchor-men their 8th consecutive win as they were undefeated last season and are undefeated thus far this season

SMTI's Jim Healey took the top honors of the afternoon as he crossed the finish line nearly a whole minute ahead of the second runner, RIC's Joseph.

One Point Margin The RIC Victory came with a

Freshman Jim Joseph and Char- | the Anchormen totaled only 37. lie Totoro placed second and third respectively, to lead the RIC of 46 points, thus, only nine points of 46 points, thus, only nine points separated the first place and last place teams. Ray Nelson placed sixth for RIC while Fred and Ray Bayha placed 12th and 14th, respectively, to complete RIC scoring.

The course which was mapped out by Cross Country Coach, William Taylor, was 4.3 miles and included a tour of the campus and Triggs Golf Course for the visitors.

This afternoon the Anchormen meet Fitchburg State in Massachusetts at 3:00 p.m.

J. Joseph crosses finish line to take second place for RIC

Booters Get 3 Goals In 4th Period To Win

With three goals in the final period the RIC soccer team gained its fourth victory of the season by beating Salem State College 4-1 in Salem, Massachusetts on Tuesday, October 3. The win also gave the Anchormen their second victory in three league attempts. Fresman Brian Samson scored the first goal of the game for RIC with a nice head on corner kick The goal came on an assist by Senior, Frank Short, with about four minutes left in the first period.

At this point a defensive battle got under way and neither team was able to score in the second period. In fact, it was not until midway through period three that Salem's Ron Joyce broke the ice by scoring his teams first and only goal of the game on a penalty kick.

After Samson's goal in the first Salem defense managed to contain RIC very effectively until the fourth period when Anchormen offensive moves forced the Salem defense into serious errors.

RIC's first fourth period goal came at the hands of Jim Wade who put one in from close range with the help of Mike Sergerson. Senior Frank Short soon followed suit with RIC's second goal of the period and with just one minute and 30 seconds left Freshman, and 30 seconds left Freshman, Lionel Jean, added one more for good measure.

Thus what was actually a tight game for three periods turned into a comfortable 4-1 victory for the Anchormen.

First Annual Spear Fishing Meet Will Be Held

On Sunday, October 15, at noon, area the First Annual North Eastern Intercollegiate Spear Fishing Meet will take place at Beavertail, Jamestown. The meet well be sponsored by Brown University's Scuba and Skin Diving Club. While the meet is open to all north eastern colleges, the comp-etition this year will be between teams representing Rhode Island College, Brown University of Rhode Island, Yale University, University of Massachusetts and Central Connecticut College.

The purpose of the meet is to bring the north eastern area colleges closer together and to develop rivalry in the sport. Hopefully this year's meet will develop into an annual event with different colleges sponsoring the meet each year

The contestants may be any undergraduate or graduate stud-ent or professor belonging to a scuba and skin diving organization on the participating college's campuses and are limited to three men per team. R.I.C.'s team consists of Ed Warnork, Bob Pingitore and Bob Johnson with Richie White as alternate.

The meet will run for three hours, unless, due to weather conditions, the officials feel the need to shorten the time period. During this time the teams will enter and exit the water only at the area determined by the ofticials at the time of the meet. They will then attempt to spear as many fish as possible. Any contestant still in the water at the end of the time period will be automatically disqualified. Also disqualified are any striped bass measuring less than 20 inches length or any tautog less than 16 inches. All of the fish caught will be donated to orphanages in the

RIFLE & PISTOL CLUB

Anyone interested in joining a rifle and pistol club now forming on campus is asked to contact either Jim Hosey or Jim Ray at the Anchor office or via the student mail. This invita-tion includes faculty members. Those interested need not own guns or be familiar with them

The winner of the meet will be the team which lands the greatest total weight of fish. Three trophies will be awarded. One for that team which has the greatest total weight of fish, one for the individual who catches the greatest total weight, and the third for the individual who catches the largest

Fish of the meet. Equipment consists of a wet suit and weight belt, which neutra-lizes the buoyancy of the wet suit, swim fins, mask snorkel and spear gun. Saftey precausions will also be taken during the meet. Each contestant must wear a mae west type inflatble life vest, and all spear guns must have an adequate saftey device in proper working order, All fish that are caught must either be beached immedi-ately or towed on a 25 foot line behind the diver. This precausion is taken in the event there are sharks in the area, the sharks will attack the fish not the diver. Also, all unofficial craft will be kept out of the meet area to avoid col-lision with the divers. The meet area will extend approximately 300 yards off shore and $\frac{1}{2}$ mile up and down the shore, but these limits will be set officially at the time of the meet. First aide kits and a doctor, familar with diving, will be available at the meet. A decompression chamber will be ready at Quonset if needed. The officials for the meet will

be the Rhode Island Council of Skin Diving. They will weigh all fish on their scales and keep score for the meet. Scoring is on a point system. One point for each pound, with a 25 point maximum. However any fish over 25 pounds will be considered in the competition for the largest fish.

Coffee will be provided for the contestants and spectators at the meet

GRADUATES STUDENTS! There are over 2000 gradu-ate students at RIC. Beginning next week a column of graduate activities will appear in the Anchor. Anyone having any copy for this column is asked to contact the Anchor

office, ext. 370.

slim one point margin over SMTI who ended up with 38 points while
