**HELLO DOWN THERE:** Fifth graders at Henry Barnard School conduct an experiment in gypsy moth control. Fawn Walton (left) and Leila Zaki check up on a couple of the incubating critters. (What's News(s) Photo by Peter P. Tobia)

## **Fifth Graders Tackle Problem: *Gypsy moths beware!***

By Arline Aissis Fleming

The fifth grade class at the Henry Barnard School is trying to concoct a solution to stop the annual attack of the dreaded gypsy moth.

"We're trying to come up with a simple, cheap, safe way to do away with these pests," said Mr. Starr, their teacher.

"Everyone has been affected by gypsy moths — we want to offer suggestions as to what to do about them," he assured.

Just after Christmas vacation ended, Mr. Starr gathered his fifth graders together to talk about the caterpillars. The insects plagued Rhode Islanders last summer when they appeared in droves on trees across the state.

Because of this, the class had plenty of material to research and background information to look into before they could get started. The students read about the various attempts which have been made at controlling the moths, and then they devised their plan.

If all goes as expected, the Henry Barnard class might just stumble upon a way to obliterate those creeping nuisances. Wipe them out forever. Save the state from another summer of caterpillar craziness.

The possibilities gave the students the momentum they needed. It was time to get started.

The students saw that they had a big job ahead of them, so they lined their cardboard boxes with aluminum foil to house the critters properly. Mr. Starr and a few of the students went out searching for them in their winter hide-a-ways.

Asleep for the season, the moths didn't realize that they had been transported from their tree houses to a strange, new world; a classroom decorated with Valentine hearts and elementary school art.

"What we want to see is if we can hatch these eggs prematurely," explained Mr. Starr. "That's Phase One. We *have* noticed changes in the eggs so far," noted the teacher.

Phase Two will depend on if, under these conditions, the eggs hatch. "If we know we can hatch them, the question will be, can we keep them alive — what can they eat?"

Phase Three will, of course, be the step which will, hopefully, stamp out the insects.

"We want to find some agent to do away with these varmints," said Mr. Starr. "Will it be a reasonable solution — what effect will it have on plants and animals?"

The conditions set up by the class include housing the insects under various light, heat and moisture conditions. Each condition and each day is noted in the students' individual logs. The experiment is monitored every day (even during school vacation) and a discussion held.

After all these experiments, what if nothing happens?

"That's o.k. We will have learned something," Mr. Starr said. "We will have learned that we can't hatch the eggs prematurely — under these conditions we have set up."

The Revenge of the Gypsy Moths, or Let's Tear Apart Gypsy Moths, (as the experiment is being called), is still in the initial phase. The "spraying" end of the project won't come about unless the eggs hatch.

If Phase One is a success, the class will prepare for launching. Their blast off — or blast out — of the gypsy moths might be just what the Department of Environmental Management is looking for.

## **Dr. Turley is new head of school of education**

By Arline Aissis Fleming

"We're not going out of business," said Dr. James D. Turley, newly appointed dean of the School of Education and Human Development.

"There is a decline in demand of teachers, but we're involved in more than just the training of teachers," he said.

Turley admittedly is taking over as head of the School of Education during a time when teaching credentials look about as promising as the prime interest rate. But just as interest rates fluctuate, so does teacher demand and whether or not the public demand for pedagogues is high, Turley's commitment to training good instructors is firm.

"This school's mission is more than just the training of teachers, we're involved in the education of teachers," he reaffirmed.

Nevertheless, during the past 10 years, the actual numbers of students passing through the School of Education interested

solely in teaching credentials has steadily declined.

Though the outlook may seem dismal for those students set on standing in front of a classroom, there are still some determined to do so.

"The students are in it because they love it," Turley said convincingly. "They're willing to take the risks and we have an obligation to help them achieve that. However, we are very busy doing a lot of other things besides teacher education."

That's plain to see. In very decisive steps, Turley answers telephone calls and tends to pending business with humor, never quite losing track of where he left off. He knows what he expects from himself as leader of this department, and the expectations are as great as the demands.

The position of dean has changed hands

(continued on page 3)

**DR. JAMES D. TURLEY**, newly appointed dean of the School of Education/Human Development, shares a light moment with **DR. RENATO E. LEONELLI**, professor emeritus, at recent reception.

## Gerontology award created

The RIC Gerontology Center has established an award in the name of Mrs. Eleanor F. Slater, former state senator and chief of the state Department of Elderly Affairs, to be made annually to a Rhode Island resident who has "contributed significantly to public service in gerontology."

The award will be called the "Eleanor F. Slater Award for Public Service in Gerontology" and will be awarded for the first time at next February's regional gerontology forum.

The award was established at this year's forum, held at RIC on Feb. 5.

Slater, who also serves as a Senate consultant, was cited for her accomplishments and achievements in the field of public service in gerontology on the state and national levels.

"As a state senator, you were an advocate for the elderly population, addressing many vital issues in aging; as a White House Conference on Aging delegate, your voice was heard; and as the director of the Division on Aging you guided Rhode Island to become a leading state in providing services for the elderly," said the statement issued at the recent forum.

Mrs. Sylvia G. Zaki said the center would be seeking nominations of any Rhode Island residents for next year's award.

## Textbook writing colloquium subject

An academic affairs colloquium entitled "How to Survive Writing a 1,000 Page Textbook" will be held Thursday at noon in Fogarty Life Science 050.

The colloquium, sponsored by the Office of the Vice President for Academic Affairs, will focus on Dr. Richard Keogh's four-year long preparation of the fifth edition of "The Science of Biology" published this month by McGraw-Hill.

The colloquium will feature remarks by Paul B. Weisz of Brown University, co-author of the biology text, and Michael Hartmann of McGraw-Hill.

# Deadline for grants, sponsored projects announced

Deadline Dates for Grants and Sponsored Projects are:

The R.I. STATE COUNCIL ON THE ARTS has set March 15, 1982, as the deadline for applications for *Project Support* and *General Operating* grants. Project Support grants provide funds to assist the development and continuation of specific arts projects that will be of benefit to the Rhode Island public. Applicable categories include visual arts, literature, dance, media, music, theatre, multidiscipline, arts services, folk arts, and community development.

The NATIONAL ENDOWMENT FOR THE HUMANITIES announces an April 1, 1982, application deadline for the following programs:

*Basic Research* — supports projects that meet a pressing scholarly need and advance a fresh understanding of matters important to scholarship in the humanities; includes support for American and foreign archeology.

*Pilot Grants* — enables institutions of higher education to test and evaluate new curricula on a pilot basis; awards of up to \$50,000 given.

*Summer Seminars for College Teachers* — to provide College teachers with oppor-

tunities to work with distinguished scholars in their fields at institutions with libraries suitable for study; stipends are \$2,500 for about 1,140 teachers.

*Elementary and Secondary Grants* — support for the development and testing of imaginative approaches to the humanities through demonstration projects which improve teaching at the elementary and secondary levels; grant categories include Practitioner Grants, Humanities Institutes for Teachers and Humanities Projects for Schools; colleges and universities equipped to develop cooperative projects with schools are eligible.

The AMERICAN ASSOCIATION OF COLLEGES is sponsoring *Project Quill-Liberal Learning for Leadership* and will make awards ranging from \$1,000-\$10,000 for projects in the following areas: 1) Helping to cross boundaries between or among the humanities, social sciences, and natural sciences; 2) Strengthening the liberal learning component of continuing education; and 3) Helping integrate liberal learning with career and professional education. Proposals may be initiated by faculty/staff or students. The application deadline is March 5, 1982.

The NATIONAL SCIENCE FOUNDATION Computer Research — New Faculty Program awards support for faculty just beginning a university career in experimental computer science. The application deadline is March 1, 1982.

The CORPORATION FOR PUBLIC BROADCASTING Anneberg Grants Program is accepting proposals for the second cycle of funding. The program is intended to encourage the development of experimental and innovative higher education teaching methods in the area of telecommunications in a variety of disciplines. The application deadline is April 5, 1982.

The WOMEN'S EDUCATIONAL EQUITY ACT PROGRAM awards grants to support activities of national, statewide, or general significance designed to promote women's educational equity. Although the deadline notice has not yet been published in the federal register, a late March or early April deadline is expected.

Please contact the Bureau of Grants and Sponsored Projects, Ext. 8228, for additional information on any of the above programs.

## Focus on the faculty and staff

DR. STEVE C. IMBER, associate professor of special education, has been writing a column for the *Rhode Island Herald* on a bi-weekly basis. The column, entitled "Parents Plights and Rights" follows a question and answer as well as an editorial format. It deals with learning and behavioral problems of children and adolescents.

JAMES M. COLMAN, director of admissions, was recently appointed a member of the Joint Committee on High School and College Articulation established by the Board of Regents for Elementary and Secondary Education. The committee is made up of high school and college faculty, administrators and students together with one member of the Board of Regents and one from the Board of Governors for Higher Education.

The purpose of the joint committee is to strengthen coordination between secondary

and postsecondary education so that students may move more smoothly from high school to college, and programs of study at both levels may be strengthened.

MINER K. BROTHERTON, associate professor of physical sciences, has had his review of "Schooners" published in the Winter 1982 issue of *The Log of Mystic Seaport*, a quarterly publication devoted exclusively to U.S. maritime history.

Brotherton, who is currently on sabbatical leave, reports from aboard the "Integrity" out of Port Salerno, Florida, that he's having "a great trip so far" and is getting some things written.

DR. JOHN EVANS, assistant professor of counselor education, presented a paper entitled "A Role for the Counselor in the Court System" at the annual conference of the North Atlantic Region of Counselor Educators and Supervisors on Feb. 4 and 5 in Danvers, Mass.

JOANNE HICKEY, a 1980 graduate of the agency counseling program of counselor education at RIC, has written on "The Clinical Practice of Neurological and Neurosurgical Nursing" which has been published by the J.B. Lippincott Co. in Philadelphia.

A book review in *Heart & Lung Journal* termed the work an "excellent text for nursing care of the neurological patient."

DR. CARL E. STENBERG, associate professor of English, has been elected to the board of trustees of the New England Innovation Group, a non-profit organization sponsored by the National Science Foundation. The Group is involved in the transfer of science and technology from public and private laboratories, colleges, universities and private businesses to local and state governments in the six-state region.

## Seeks tutors

The Rhode Island College Adult Academy of Basic Skills is again training volunteers as reading tutors for adults enrolled in its program who are non-readers or who read very poorly.

The 12-hour workshop, conducted by Mrs. Kathleen R. Hayes, will begin on March 4 at 7 p.m. and will continue on the next three consecutive Thursday evenings.

All four sessions will be held in Horace Mann Hall, Room 064.

Upon completion of this workshop, volunteers may choose to tutor adults in basic reading and writing at any one of several centers of the adult academy.

Those interested in participating in the workshop may register by calling the academy at Ext. 8287.

## In Bulletin

Rhode Island College's studies of archaeological artifacts left behind by man in Rhode Island over the years was the subject of an *Evening Bulletin* column last Monday.

Robert Chiappinelli, writing his "City Life" column, featured Dr. E. Pierre Morenon in an article entitled "Looking at Man's History Through His Garbage."

The article was prompted by a feature article by *What's New(s)* acting editor George LaTour which appeared in the August 30 issue of the faculty/staff newspaper. The article was entitled "Modern Man is Burying Himself."

The *What's New(s)* article, written last July, had been picked up by UPI and distributed around the country, and by a Canadian radio network which conducted a telephone interview with Morenon.

LET'S SEE, that calculates to be \$4,119.22. That can't be right! Arthur Lariviere, a business management freshman, figures the cost of his books the "easy" way.

# Dr. Turley is dean of school of education

(continued from page 1)

several times during the past five years, so Turley is entering into a job which lacks a specific management pattern. As associate dean since 1980, he has at least been in the front seat getting an idea of which direction the department should be heading.

"It's important for the person in charge of the place to have some coherent understanding of what the job entails," he assured.

One of his first steps as dean was to promote Dr. Patricia Glasheen from assistant dean to associate dean and then to eliminate the assistant dean's position.

His rationale?

"All the departments are being told to be more frugal in their use of personnel resources," so he made his office the first to begin economizing.

"I can't ask all the departments to conserve if . . ." he trailed off as he was interrupted by the first of several messages. Getting back to the conversation at hand he said, "It's important for the faculty to perceive that the dean be a decisive person. It's a reassuring feeling."

Among his tasks as dean, as he sees it,

is "minding the store for the other teachers."

"It's important that the faculty within the school have a healthy and accurate view of themselves as individuals and of the school as an agency. That can and does have an influence," he said. Turley sees the drop in students as beneficial from the sense that it offers the faculty an opportunity to "branch into other areas of research."

Will less crowded schools of education bring about better teachers? Not necessarily, said Turley, but he has noticed some differences in today's teacher/education students.

"Many of them are not as sensitive to the needs of pedagogy as they were 10 years ago. And we've given in to that. In the old days, we said 'this is a piece of chalk, this is a chalkboard, this is an eraser,'" he laughed.

But Turley isn't one to regale the days of yesteryear and moan about the sad state of today's education.

"People have always talked about how the world is going to hell and things are terrible. That's going to be with us all the time. The fact of the matter is that American students do quite well compared

to students in other parts of the world.

"I do think there can be more rigor — especially in secondary education — but we should be mindful of the fact that good teachers do make a difference and are making a difference," he said.

The dean of RIC's School of Education likes teachers, and he says so, often.

He has been involved in education since the early 1960s so his observations are not those of a novice. He believes that the future of education depends on good teachers.

"A well-managed school can have a profound influence on the ability of a child to master the basic skills of reading, and writing, his/her desire to learn and their interest in excellence. That's another aspect of our mission here," he said.

But that mission also includes areas of education such as language arts, community health, adult education and the world of the handicapped. The management and policy development of social institutions is another area he is concerned with.

"These concerns are all concerns of the Department of Education and Human Development," he smiled. "We have a first-rate faculty who are modest about their accomplishments and achievements,

and I'm their spokesman," he affirmed with a smile.

Turley was officially named "spokesman" on Jan. 27. He came to RIC initially in 1967 as assistant professor of English and secondary education. In 1971, he was jointly appointed to associate professor of English and secondary education. He was promoted to full professor in 1975, and in 1976, became chairman of the department of secondary education.

Prior to his arrival at RIC, the Braintree, Mass., resident was a teacher at the Dover-Sherborn Regional High School as well as assistant headmaster and chairman of the English department. He served there from 1961 to 1967 and previous to that, was a teacher in the Canton High Schools and the Boston Public Schools.

Though his latest promotion has earned him the title of "Dean", he still can be found making the coffee over in his wing of Horace Mann.

His daily commute from Braintree and the many interruptions his job entails might find the dean drinking more coffee in the coming days. But like most other things, he'll do it with a sense of humor. The dean's coffee mug is painted with polar bears.

## Legislative Alert

Below is current legislation before the Rhode Island General Assembly that is of importance to faculty and staff:

### NEW HOUSE BUSINESS

**Gifted and Talented Children** Joint Resolution, H-7122 by Batastine and others. This resolution appropriates \$600,000 to be expended under the direction of the state Department of Education for special programs for gifted and talented children. Finance Committee.

### NEW SENATE BUSINESS

**One-Time Energy Surcharge** to Students at the Community College, S-2102 by McKenna and Carlin. This act accedes to a request by the Board of Governors for Higher Education and permits a one-time energy surcharge of \$40 per fulltime student and \$4 per credit for part-time students at the Community College of Rhode Island for the 1982 spring semester. Finance Committee.

**State Employees' Payroll Deduction**, S-2122 by D'Amico. This act would make state officers and employees payroll deductions available to any credit unions, banks, savings, banks, or trust companies organized within Rhode Island. Finance Committee.

**Conveyance of State Property** to Tax Exempt Group, S-2124 by D'Ambra and Hickey. This act requires that prior to the conveyance of state property to tax exempt groups, a financial impact statement shall first be obtained from the municipality where the property is located. Finance committee.

### EFFECTIVE WITHOUT GOVERNOR'S SIGNATURE

**Joint Resolution** extending the reporting date of the special legislative commission to study the entire field of education of gifted children, and the financing thereof, S-2019.

2/2/82

\* \* \*

### NEW HOUSE BUSINESS

**Conflict of Interest** of Public Officials: H-7161 by Smith and others. This act would amend the law regarding the State Conflict of Interest Commission to provide that at a hearing before the commission, a simple majority of those present, rather than at least five members, be required to find violations of the law regarding conflict of interest by public officials. Judiciary Committee.

**Continuation of the CPR Program** in Public High Schools: H-7180 by F.H. Sherman. This resolution authorizes the appropriation of \$15,000 for the continuation of the cardio-pulmonary resuscitation program in the public high schools. Finance Committee.

**Appropriation for Gypsy Moth Suppression**: H-7189 by DeAngelis and others. This act will make an appropriation and create the necessary accounts to be used to conduct a gypsy moth suppression program. Finance Committee.

**Study on Feasibility** of Cities and Towns Having their own Flag: H-7190 by F.H. Sherman. This resolution creates a seven member special legislative commission whose purpose it shall be to study the feasibility of each of the 39 cities and towns having its own flag bearing its own coat of arms in accordance with the laws of heraldry. Special Legislation Committee.

**State Vehicles to be Garaged** on State Facilities: H-7195 by Lynch and others. The act would prohibit use of state-owned vehicles for personal use, or outside working hours, or driving such vehicles home and would require their being garaged or parked on state facilities. Finance Committee.

**'82-'83 State Budget** H-7205 by DeAngelis and others. The state budget for the 1982-83 fiscal year. Finance Committee.

**Drinking Laws**: H-7209 by Long. A bill forbidding persons under age 20 to enter taverns, except when food is being served, and exempting employees of the tavern. Special Legislation Committee.

**Special Education Contributions**: H-7237 by Lederberg and others. A bill providing that contributions to the School for the Deaf would be the same as other special-education contributions by the various cities and towns, effective July 1, 1982. Finance Committee.

**Education Funding**: H-7239 by Sherlock and others. A bill providing state financing to cover unanticipated local spending for special education caused by students who change school districts after money has been appropriated for a fiscal year. Finance Committee.

### NEW SENATE BUSINESS

**Community Antenna Television Systems**: S-2145 by Quattrocchi and others. This act amends the Rhode Island community antenna television systems act by providing for the payment of expenses incurred in an investigation and hearing. Corporations Committee.

**Teachers' Retirement** after 30 Years: S-2155 by Hickey and others. This act would allow teachers to retire after 30 years of service regardless of age and at the full service retirement allowance. Joint Committee on Retirement.

**Procedure for General Assembly Members' and Teachers' Retirement**: S-2172 by Hanaway. This act clarifies the provision providing that a member of the General Assembly who is also a teacher may receive a pension under both systems. Joint Committee on Retirement.

**Senate Resolution** for the Handicapped: S-2187 by Castro and others. A senate resolution asking Congress to amend the civil rights law to bar discrimination against the handicapped in employment. Labor Committee.

### PASSED BY THE SENATE

(House passage required)

**S-2101 as amended**: One-time energy surcharge to students at the Community College.

2/11/82

**FUTURE ALUMNI?** Tommy Rathbun, (l to r), Maurice and Gloria Stuart of North Providence enjoy the winter season as they make their way up Fruit Hill Avenue by Rhode Island College's Alumni House.

(What's New(s) Photo by Peter Tobia)

## Keeping Score

with Kathy Feldmann

Freshman gymnast Tracey Garforth from Portsmouth is not that different from most freshmen at RIC.

She had all of the same decisions as others to make such as what major, what courses, etc.

Many high school athletes must also decide if they are going to continue with athletics at the college level.

For Tracey the answer was a definite yes. Yes, that she wanted to be a part of the gymnastic team, even though one thing now was very different. She must now perform with a metal rod in her back.

When Tracey was 13, it was discovered that she had Scoliosis, curvature of the spine. At that time, she went under the care of an orthopedic surgeon out of Children's Hospital in Boston.

From her freshman year through junior year in high school, she had to wear a back brace. It was hoped that her condition would improve during this time. All through high school Tracey continued to be a gymnastic competitor for her high school team, as well as for her private club school team. She removed her brace during gymnastic practice and competition.

Tracey was voted MVP for the gymnastic team in her sophomore, junior and senior years. She was also MVP for the track team when she was a senior.

For five years, she received her gymnastic training at the Narragansett School of Gymnastics. When she was a freshman she was the U.S.G.F. Class II state gymnastic champion.

Tracey graduated from high school 68th out of 256 maintaining a B+ average. She

was named "Female Athlete of the Year" as a senior, and received a scholarship from the Boosters Association.

A decision was made during Tracey's senior year that she would have a back operation after she graduated. She decided she would delay going on to college.

She was operated on in December, 1980. The operation consisted of straightening the spine, placing a metal rod in her back, and then taking bone chips from the pelvis and grafting them on to the rod and the spine.

She remained in a body cast from her neck to her hips until June, 1981. Her doctor told her that she could do anything that she wished. He placed no restrictions on her, so Tracey was back in the gym in July.

She has lost a great deal of back flexibility, but she has more than compensated for it by learning new skills.

She is an all-around competitor for RIC and is averaging 28 points AA. She is ranked in the top 20 in the EAIW Region I for Division III.

Tracey is really enjoying college gymnastics. She said, "This year has been a lot of fun. In high school I felt under a lot of pressure, and any mistake or fall was a disaster, but now I just try to do the best I can, and I'm enjoying competing again."

Tracey is a business management major and has a 3.26 grade point average. She plans to go on to graduate school and then pursue a career as an accountant. She is also a soccer cheerleader in the fall.

This young woman possesses a great deal of determination and is always ready to face up to any challenge.

## Spring concert set by dance company

The Rhode Island College Dance Company will present its spring concert on March 4, 5 and 6 in Roberts Auditorium at 8 p.m.

Five new original pieces are planned by the 22-member group. Jennifer Cooke is artistic director.

The program will include a piece by Lynn Taylor-Corbett called "Surfacing." The choreographer recently did a piece for the American Ballet Theatre.

Other works include "Night on the Town," by Martha Partridge; "Network," by Clay Taliafaro; "Ode on a Grecian Urn" by Rodney Griffin; "Passings" by Jennifer Cooke and "Hexapede" by Barbara Ebenstein. A piece done in 1977 called "Mysterious Providence" by Paul Sanasardo will also be presented.

Admission will be \$4 for the general public, \$2.50 for senior citizens and students and \$2 for RIC students. Group rates are available.

**RIC DANCE COMPANY REHEARSES** for its spring concert on March 4, 5 and 6 at 8 p.m. in Roberts Auditorium. In the forefront are Jennifer Cooke and Bruce Hemond, and rear (left to right) Amy Joseph, Beth Pierik and Debbie DiBiase.

(What's New(s) Photo by Peter P. Tobia)

**Christopher R. Kies.**

## Piano recital scheduled

Christopher R. Kies, an assistant professor of music at the University of New Hampshire and symphony performer, will perform Sonata #2, "Concord, Mass., 1840-1860" by Charles Ives in a piano recital tomorrow (Feb. 23) at 1 p.m. in Roberts Hall 138.

Kies has taught at the All-Newton Music School in Newton, Mass., and the South Shore Conservatory in Hingham, Mass. He is a graduate of the New England Conservatory and Brandeis University; has studied piano with Russell Sherman, Theodore Lettvin and Ylva Novik, and composition with Arthur Berger, Martin Boykan and Donald Martino.

In 1975-76 he received a Fulbright-Hayes Fellowship to study composition in Cologne, West Germany.

Orchestras with which he has performed include the Boston Symphony, the Seattle Symphony, the Buffalo Philharmonic and the New England Conservatory Orchestra.

In 1971-79, Kies was the pianist for the Collage, Contemporary Music Ensemble which has recorded on CRI and has an active subscription series in the Boston area. The recital is free and open to the public.

## Witkin exhibit

The paintings and drawings of Jerome Witkin will be on exhibit in the Rhode Island College Art Gallery beginning Thursday, Feb. 25.

The exhibit will remain on display in the Bannister Gallery through March 12. Gallery hours are Monday through Friday, 11 a.m. to 4 p.m. and Sundays, 1 to 4 p.m.

Witkin, a professor at Syracuse University, deals mainly with the human figure, often set in allegorical themes.

The opening will be held at 7 p.m. on Thursday, Feb. 25. The event is open to all.

## Calendar of Events

### MONDAY, FEBRUARY 22

8:30-4:30 p.m. *Exhibit*, "Noted Black Women and Men in Rhode Island." Continues through Feb. 26. Urban Educational Center.

9 a.m.-Noon

1-4 p.m.

7-10 p.m. *CPR Courses*. Continues through Feb. 26. Free and open to all, but registration is required. For more information, call 456-8061. Sponsored by the American Heart Association and RIC's Health-Education Dept.

11 a.m.-Noon *Career Service Workshop*. "Resume Writing" Craig Lee, Room 054.

Noon-12:45

p.m. *Behavioral Weight Control Workshop*. Judy Gaines. For more information call 456-8094. Craig Lee, Room 130.

Noon-2 p.m. *Co-op Workshop*. "What Can I Do with a Major in Liberal Arts?" Gaige Hall, Room 376.

7-8 p.m. *Arts and Crafts Exhibition*. Sponsored by Student Council for Exceptional Children. Student Union Gamesroom.

7 p.m. *Guest Speaker*. Sonia Sanchez, poet. Can be counted toward Leadership, Participation and Service Award. Student Union Ballroom.

### TUESDAY, FEBRUARY 23

9:30-2 p.m. *Junior, Senior, High School Dance Symposium*. Jennifer Cooke, Barbara Ebenstein, dance directors. Classes, workshops and demonstrations. Informal showing in Roberts Auditorium at 12:30 p.m. Dance Studio, Walsh Gym and Roberts Auditorium.

Noon *Recollections of Clarence Darrow*. One-man performance by Dr. P. William Hutchinson. Free and open to all. Horace Mann, Room 193.

Noon-2 p.m. *Cooperative Education General Information Session*. Gaige Hall, Room 376.

Noon-2 p.m. *Finance Commission Meeting*. Student Union Chambers.

Noon-2 p.m. *Career Service Workshop*. "Interview" Craig Lee, Room 054.

12:30 p.m. *Forum*. "Blacks and Higher Education in Rhode Island". Student Union Ballroom.

1 p.m. *The Clocks That Time Us: The Circadian Timing System in Human and Non-Human Primates*. Martin C. Moor, EDE., M.D. & Ph.D., speaker. Sponsored by the biology dept. Free and open to the public. Fogarty Life Science, Room 050.

1-2 p.m. *Jewish Students and Faculty Meeting*. Student Union, Room 304.

6 p.m. *Women's Basketball*. RIC vs. Roger Williams College. Home. Can be counted toward Leadership, Participation and Service Award.

6:30-11 p.m. *Sigma Mu Delta Meeting*. Student Union, Lounge F.

8 p.m. *Basketball*. RIC vs. Roger Williams College. Can be counted toward the Leadership, Participation and Service Award. Home.

### WEDNESDAY, FEBRUARY 24

11 a.m.-Noon *Career Service Workshop*. "Job Search" Craig Lee, Room 054.

12:30 p.m. *Exhibit/Lecture/Discussion*. Black American Folk Art. Can be counted toward the Leadership, Participation and Service Award. Student Union Ballroom.

2:30-4 p.m. *Assertiveness Training Workshop*. Judy Gaines. For more information call 456-8094.

7 p.m. *Women's Fencing*. RIC vs. Brandeis University. Away.

8 p.m. *Movie*. "The Spook Who Sat by the Door" and "Bustin Loose". Gaige Hall.

### THURSDAY, FEBRUARY 25

10-11 a.m. *Career Service Workshop*. "Career Decision-Making". Craig Lee, Room 054.

10 a.m.-Noon *Performance Based Admissions Program*. Free Information Session. Sponsored by Office of Continuing Education. Alumni Lounge, Roberts Hall.

Noon-2 p.m. *Co-op Workshop*. "What Can I Do with a Major in Sociology/Social Welfare?" Gaige Hall, Room 376.

7-9 p.m. *Art Exhibition Opening*. Paintings and Drawings by Jerome Witkin, from Kraushaur Gallery, New York City. Continues through March 12. Gallery hours: Monday, Friday, 11 a.m.-4 p.m., Sunday 1-4 p.m. Bannister Gallery, Art Center.
