Rhode Island College

Providence, Rhode Island

Exodus Yearbook has created the tradition of outlining the lives of a few select outstanding seniors in a section that we've call "Senior Story". This section features some of our favorite students from the graduating class.

Andrea J. Stewart

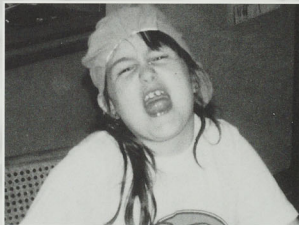

Hometown: Providence, RI

Major(s): English and Communications

On-Campus Involvement: four years as an editor at the Anchor, Lambda Pi Eta, Student Honors Advisory Committee, and Honors Mentor

"My younger Years: As a child I was always creating things in my spare time; ie, writing little plays for my Barbie dolls to perform, or coloring pictures, or making costumes to put on my pet rabbit (poor Fluffy!). I was always an honor student, although I detested math (especially word problems). My happiest childhood memories originate from the camping trips that I would take with my parents every summer. I've always been an outdoorsy person, and would never pass up an opportunity to play outside. In fact, I still won't!"

SENIOR STORY

"A wise woman once made the analogy that all of us are born with flawless skin. The scars we accumulate through the years tell the story of full lives; they are badges of honor and markings of experience. The night of the Station nightclub fire I gained scars that will fade eventually, but lost friends whose memories will never diminish. I realized that night that you can never take anything, or any one, for granted, because your life can change in an instant. Of all the things I've learned in the past four years, that is the most important. I entered RIC in 1999 as an impressionable freshman, but have exited in 2003 as a woman of strength and love."

"When I grow up...: I want to write for a travel magazine, preferably National Geographic. I want to explore the world and capture what I see in pictures and words. I also want to write a novel and make billions of dollars. With some of the profits, I will become the co-founder of a sanctuary for abused and neglected animals."

William A. Dory IV

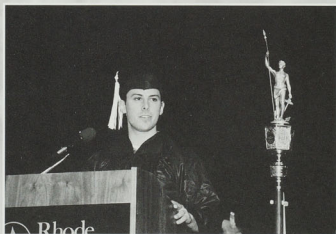

Four years ago, after six years in the United States Navy, I came to Rhode Island College because it was the only school where the Montgomery GI Bill would cover 100% of my tuition and books. While not necessarily the best way to choose an institution of higher learning, the decision was one that I have never regretted.

My initial transition from sailor to student was not as easy as I had initially thought it was going to be, my military background and age made my perspective of the world incredibly different from many of my peers. The fact that I have a natural inclination to argue points, a sailor's mouth, and a tendency to be fairly aggressive didn't help either. Despite these personal problems, I found my niche at Rhode Island College.

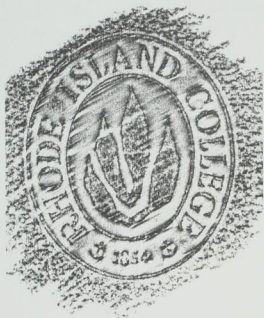

In *The Anchor*, Student Parliament, and various other organizations I used my previously mentioned tendencies to be a voice for the students of our community, fighting the entrenched interests of our college. Needless to say this made me the ire of many individuals (mostly administrators, Student Community Government Inc., and a few hypersensitive students) who saw me as subversive, to say the least.

The critics aside, my time here at the college has been good, and I have matured as both an individual and a citizen. Thank you to all that have supported me.
